TFC-600DW-A | 600-gallon Aviation Fuel Trailer

This package features a Double Wall 600-gallon tank. It consists of a stainless-steel primary tank with internal baffles and a mild steel outer containment with powder coat finish. It is mounted to a 14K GVW double-axle steel trailer, is DOT approved for use with JET-A, and can be towed on public highways when full.

STANDARD FEATURES

- Tank level gauge, leak gauge, lockable fill cap, 20" Betts hatch with vacuum/pressure vent

- Stainless Steel baffles to prevent fuel sloshing

- Powder coat paint with base coat primer

- Integrated fuel sump with spring close valve

- Hoses, piping, and fittings are aviation grade

- Ball valve installed to isolate the tank
